Projects

AssistHub - a platform designed to streamline and manage customer support tickets [\[Link\]](#)

Technologies: React.js, Firebase, Firestore, Firebase Storage,
Tailwind CSS, JavaScript, HTML, CSS

AssistHub provides secure signup authentication for customers and agents, enabling customers to create, track, and manage tickets, while agents can resolve and update them. The system also supports file uploads, role-based access, and real-time updates via Firebase.

Admin-Controlled Task Assignment and Completion System [\[Link\]](#)

Technologies: React.js, Local Storage, JavaScript, HTML, CSS
Built a task management system where admins assign tasks, and employees track, accept, cancel, or complete them. Features role-based authentication for seamless task delegation.

Personal-Portfolio [\[Link\]](#)

Technologies: HTML, CS, Tailwind CSS, ScrollTrigger

showcasing projects and skills. Implemented smooth animations
Designed and developed a responsive personal portfolio
and interactive scrolling effects using ScrollTrigger for an
engaging user experience.

Achievements

National Player - Table Tennis: Represented Dehradun
at Nationals

Stage Performer - Beatboxing: Engaged diverse
audiences and led cultural events

Position of Responsibility

MANAGER at Intra-University Society: **2023-2024**
Managed events for Swaragini, the cultural society, where I
developed leadership, communication, and event management
skills. Successfully organized multiple college events, gaining
experience in teamwork and project management

NATIONAL CADET CORPS: **2022-2024**
Completed a year in NCC, actively participating in social
projects that enhanced my teamwork, public speaking, and
leadership skills. This experience reinforced my commitment to
service and discipline
